How to use the blocking structure in completing your application

The blocking structure diagram sets out all the subjects on offer at PGW Sixth Form.

The columns A to E show the different time table blocks that the curriculum is organised into. All subjects in the same block will have their lessons running at the same time. You must not choose two subjects from the same block as the subjects' lessons will clash and you will not be able to attend both sets of lessons.

Level Three Courses - these are at A level standard.

Each subject entry in the prospectus has specific entry requirements. Do check these carefully to ensure you are choosing appropriate courses. However, in general students starting level 3 courses need a minimum of 5 A*-C grades or equivalent at GCSE including a 4 in English and maths.

Multiple block subjects

Some subjects require more time than a single option block. These are double BTEC subjects. These subjects appear in more than one option block. You must put this subject down as a choice in all option blocks that it appears.

If students have a 'clash' of subject choices this needs to be brought to our attention in their application. Every endeavour will be made to ensure every student's preferred choices are accommodated.

The blocking structure has been arranged in such a way to offer students as many choices as possible. However, we reserve the right to remove courses should a limited number of students apply for the course.
